

## **USER INFORMATION**

Product Name: SAFETYWARE XtraFlex Foam Nitrile Palm Coated Gloves

Product Ref : FNP01

Sizes available : 7, 8, 9, 10

### **1 INTENDED USE**

This product is a protective glove for general use against mechanical risks, without danger of chemical, electrical or microbiological risks.

### **2 PRECAUTIONS FOR USE**

- Do not get near to running machines as it is a potential hazard of dragging by the machines.
- Before use, check the glove visually, in order to verify its safety conditions. The gloves must be in perfect condition, clean and undamaged.
- In case of visible damages (Breakages, stains), gloves must be substituted.
- These gloves correspond to safety features only if perfectly put on and keep in a good state.
- Always wear gloves with dry and clean hands before use.

### **3 INSTRUCTIONS FOR USE**

- To put the glove on, pull over the top of the hand, inserting fingers into the glove.
- To remove, pull away from the top of the fingers.

### **4 INGREDIENTS / HAZARDOUS INGREDIENTS**

The palm side of this glove is coated with nitrile. It may be a possible cause of allergies to sensitive individuals, including irritation and/or allergic reactions. If this occurs, seek appropriate medical advice immediately.

### **5 STORAGE**

Store in a cool, dry place away from frost and light.

### **6 CLEANING**

No special maintenance is recommended for these types of gloves.

## 7 CONFORMITY

These products also meet the requirement of EN 388:2016+A1:2018.
